Taking some time out for my self seing everything about youth detention centres is re triggering enough but on top of that I told #maryfallon from #4corners yesterday when they rang me I didn't not want any images or videos of me in it it's traumatising and I don't wanna have to keep seing I feel really let down and disrespected from four corners and @abcaustralia as they had no support or respect for us young peoples trauma and pain thinking of all young peoples in detention centres all over Australia and even brothers and sisters that have been inside in the past

For any one wanting to repost or share images or videos of my self I can't stop you from sharing them but I do ask for the respect for you to approach me and ask permission or let me know that your sharing so I don't have to trigger myself 🥺🙏o
