

Maternal mortality ratio of women who gave birth, by maternal Indigenous status, 2012-2020

Select maternal characteristic:

Maternal Indigenous status

Maternal deaths

■ Direct ■ Indirect

Notes:

1. Data are not available from Western Australia for all years.
2. The number of women who gave birth used as the denominator to calculate the maternal mortality ratios excludes Western Australia for all years to enable accurate calculation.
3. The sum of the maternal mortality ratios may differ from the presented total due to rounding.
