

Table 4

MRFF priorities 2016-2018	MRFF priorities 2018-2020	MRFF priorities 2020-2022	MRFF priorities 2022-2024
Antimicrobial resistance	Antimicrobial resistance	Antimicrobial resistance	Antimicrobial resistance
International collaborative research			
	Global health and health security	Global health and health security	Global health and health security
Disruptive technology			
	Digital health intelligence	Digital health intelligence	
			Data, digital health & artificial intelligence
Clinical quality registers			
National data management study			
	Comparative effectiveness research	Comparative effectiveness research	Comparative effectiveness research
MRFF infrastructure and evaluation			
Communicable disease control			
	Public health interventions	Public health interventions	
			Preventive and public health research
			Health impacts from environmental factors
National Institute of Research			
Building evidence in primary care	Primary care research	Primary care research	Primary care research
Behavioural economics application			
Drug effectiveness and repurposing	Drug repurposing	Drug repurposing	
National infrastructure sharing scheme			
			Research infrastructure and capability
Industry exchange fellowships			
Clinical research fellowships			
	Clinical researcher capacity	Clinical researcher capacity	Health and medical researcher capacity and capability
Clinical trial network			
Public good demonstration trials			
Targeted translation topics			

Research incubation units			
Biomedical translation			
	Translational research infrastructure	Translational research infrastructure	
			Translation and commercialisation
	Aboriginal & Torres Strait Islander Health	Aboriginal & Torres Strait Islander Health	Aboriginal & Torres Strait Islander Health
	Ageing and aged care	Ageing and aged care	
			Priority populations
	Consumer driven research	Consumer driven research	Consumer driven research
MRFF priorities 2016-2018	MRFF priorities 2018-2020	MRFF priorities 2020-2022	MRFF priorities 2022-2024
